at Jackson & Hurst's office.

POLICE BUSINESS BOOMING

Reckless Shooting on the Levee Last Night.

Steamboat Mate and Deck Hand Fight—Arrest of the Latter—Other Law Violators.

A regular old time St. Louis levee row occurred at the Diamond Jo landing shortly after the arrival of the Sidney from down the river, at about 10:45 o'clock, last night. First Mate O'Connor was aboard the boat asleep and the handling of the freight was being looked after by the second mate a young fellow known on the boat as "Charley," who had just received his papers as second mate having been a deckhand on the boat since the beginning of the season. In the freight house the mate known as "Charley" got into a dispute with a colored "rooster" named William Hawkins and told him to go on the boat or he would blow his brains out. The rooster placing his hand on his pistol pocket ran out of the house and behind a back that was standing near by and told the mate who was following him with a revolver in his hand to shoot if he dare. It is not known positively who fired the first shot, but in a few seconds the air was full of bullets, people, hacks, "roosters," profanity, etc., during which time Hawkins escaped to Davenport, and Skip Day's horses took fright and ran to the Taylor house barn, where they were caught.

The police arrived about 10 minutes afterward, but the "rooster" was gone and the mate was aboard the boat, so that no arrests were made. Hawkins was afterward captured in Davenport, and will have his hearing before Magistrate Wivill this evening.

POLICE POINTS.

W. G. Brown, an erstwhile dude with a fair-haired pompadour and an air of importance, looked a little wilted as he removed his silk hat in the presence of Magistrate Wivill this morning. He was found by Night Captain Long and Officer Schaab "knocked under" at the Peoria depot last night and was kindly assisted to the armory, and the magistrate assessed him \$5 and costs this morning, which he paid and went his way.

"Henry Scott and 'May Morgan' who were taken to the station by Officers Hetter and Schaab last night for disorderly conduct, were each fined \$5 and costs by Magistrate Wivill this morning. May is a well known character about town, having been arrested before for indulging in a fist encounter with another "sister in sin." She is not very prepossessing in appearance, and has a voice like a hired man. The pair were locked up until they could secure the necessary wherewith to liquidate.

Patrick Daily was arrested by Night Captain Long last evening for raising a row at the Milan street railway office, where he had some wages due. The trouble was due to Patrick's over indulgence in "the juice of the forbidden fruit," which made him rather noisy. He talked to the magistrate this morning like a phonograph turned loose, but it didn't go. "Five dollars and costs," said the magistrate, and Patrick went down and dug up the filthy lucre.

John Dunn, a tall angular specimen of overgrown boyhood was arrested in the "Q" yards last night and was found to be carrying concealed weapons. He will have his hearing before Magistrate Wivill this evening.

Peter Sours was arrested for toying with whisky sours by Officer Carlson this morning, and will have his hearing this evening.

C. Hawk and Emuel Overshirt were arrested on Moline avenue last night by Officer Sundehn for disturbing the peace—fighting.

Another Improvement.

A movement is on foot looking to the formation of a club composed of representative citizens, and the purchase of the Sears homestead, adjoining Black Hawk's tower, with a view of converting it into a club house. The prospective improvement of the Rock Island & Milan road by the introduction of electricity as a motive power, has encouraged such a move, which will probably be carried out—if the South Rock Island road commissioners don't knock it out.

Black Hawk Building Association.

The annual meeting of the Black Hawk Homestead association was held last evening, and four directors elected as follows: F. C. Denkmann, W. H. Marshall, William Roth and W. A. Paul. Officers were elected as follows:

President—J. A. Montgomery.
Vice President—F. C. Denkmann.
Secretary—T. J. Medill, Jr.

Annual Encampment, G. A. R.

For this occasion, the Burlington, Cedar Rapids & Northern railway will make a rate of one lowest limited first class fare for the round trip. Tickets on sale July 31 and August 1 and 2. Final limit August 10, 1891. For full particulars regarding rates, time of trains and other information, call on or address any agent of this company or the undersigned.

The soft glow of the tea rose is acquired by ladies who use Pozzoni's Complexion Powder.

Rever Rapids.

The St. Paul is due down tomorrow. The Pittsburg is expected to arrive up tomorrow afternoon.

The stage of the water was 1.80 at noon; the temperature on the bridge, 80. The Robert Dodds brought down 16 strings of logs, and the Thistle the same number of lumber.

The Verne Swain, Mary Morton and Jo Long came down; the Sidney, Pilot, Gen. Barnard, Jo Long and Verne Swain passed up.

The Libbie Conger carried an invitation excursion under the auspices of the Lady Turners of Davenport, down the river last evening. Nearly 600 were on board, and all enjoyed themselves immensely.

The Schnell club's invitation excursion down the river on the Josephine last evening was a success in every way. About 800 were on board, and an exceedingly pleasant time was had by all.

The other lumber manufacturers are following the example of Mr. Weyerhaeuser and running double decked rafts. The Clinton age says: "The Volunteer arrived down yesterday with a double decked raft for W. J. Young & Co. Whether this plan of towing rafts will prove advisable or not yet remains to be seen. During high water a double decked raft could perhaps be handled with safety but during the present low stage of the river considerable care is necessary. The raft yesterday drew about three feet of water."

A gentleman writing to the lumbermen from the upper Mississippi says: "There will be a good many million feet of logs that will have to lay in ravines and crevices for another year, owing to the fact that their is not enough water to float them. The summer rains are not heavy enough to move them. It will require a sudden freshet or a small sized flood. I have between 18,000,000 and 20,000,000 feet on Platte river and Hillman brook that cannot be moved before next year on account of low water."

Aid, Adams' Explanation.

ROCK ISLAND, July 28.—Editor ARGUS: I notice in last night's ARGUS that Mr. Louderback is surprised at my remarks in regard to the street car company at the council meeting last Monday evening. Mr. Louderback gave me a communication addressed to the street and alley committee, at my urgent request, but said communication was not satisfactory to me the way it has turned out. It committed Mr. Louderback to nothing, but stated that in 30, 60 or 90 days his people would give the matter of putting blocks in along their lines their attention. I, as a member of the street and alley committee, requested Mr. Louderback and Mr. Hunt to place blocks in their line as they were laying it, and they told me they would. I also requested the mayor to tell them we insisted on their putting in the blocks as they laid their track and they promised him they would. Last Monday I examined the track and was unable to find any blocks, but found that the track was all graded with cinders and macadam, and no provision made as far as I could see for blocks. It was my opinion if the street car company intended to place blocks in the tracks they would have done so when they had their tracks excavated, as it would have been a great deal easier to have done so.

I have no inclination in anyway to oppose the street car company, but we, as a city council, have a right to expect Mr. Louderback to comply with the ordinances under which the street car company is running. Mr. Louderback has had a good job done on the Milan line; I only wish he would follow it up and place some of the rest of his lines in shape. The Elm street line is impassable from Seventh to Tenth avenue. Mr. Louderback is working in the interest of the street car company. I am doing what I think is for the best interest of the city, and I do not expect at all times, and in all things to agree with the street car syndicate its manager, attorney, or employees. The street car company has done a great deal for Rock Island and at the same time the city has shown them a great many favors.

Let Mr. Louderback comply with the ordinances and laws of the city, and he will find me willing and ready to favor the street car syndicate in every way that it is possible for me to do.

J. C. ADAMS.

Bargains in Town Lots.

Parties wishing to secure lots in Schnell's addition can do so by calling on M. J. Murphy, 2207 Seventh avenue, any afternoon between 12 and 3 o'clock and between 6 and 7 o'clock for the next 10 days. Mr. Murphy will be on the grounds every evening from 6:30 to 8 o'clock in order to show lots to intending purchasers.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

The Gambling Cases Again.

In the case of Burns and Woodard, of Moline, charged with keeping a gambling house, which is being heard in the county court, today McEniry & McEniry as attorneys, succeeded in having the case as to Woodard dismissed. The evidence in the case of Burns being all in, States Attorney Sturgeon opened the arguments for the prosecution, being followed by M. J. McEniry and William Meese for the defense, and William Jackson closing for the prosecution. The case went to the jury at 3 o'clock.

Deafness Can't be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of 10 are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give \$100 for any case of deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh cure. Send for circulars, free.
